1. The following is an examiner's statement of reasons for allowance: the claims are allowable because the prior art of record fails to disclose or teach the recited refrigeration unit having an inclined surface extending downwardly adjacent and towards the front side, and the cabinet having an inclined surface extending upwardly adjacent and towards the back side, and a seal secured around a perimeter of the evaporator inlet opening and the evaporator cool air exhaust opening. When the refrigeration unit is inserted into the cabinet, the back side of the refrigeration unit engages the inclined surface of the cabinet, and the front side of the cabinet engages the inclined surface of the refrigeration unit. The seal is thus compressed as the refrigeration unit is lifted.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
